

FM TRADING F.M.Z

GLASS WORKS

Signature Collection

Tempered clarity. Frameless precision. Flawless installation across the UAE.

AJMAN CHINA MALL | SHOP DB 030 | GATE 7

BRAND STORY

Clarity, Cut to Fit Your Space

Precision glass for bathrooms, offices and living interiors.

FM Trading F.M.Z fabricates and installs safety-grade architectural glass — frameless shower enclosures, office and room partitions, mirrors and splashbacks. Every panel is measured on site, tempered for safety, edge-polished by hand and fitted with hardware chosen to match the finishes already in your room.

TEMPERED

Safety-grade glass on every panel we supply.

PRECISION

Site-measured and CNC-cut to the millimetre.

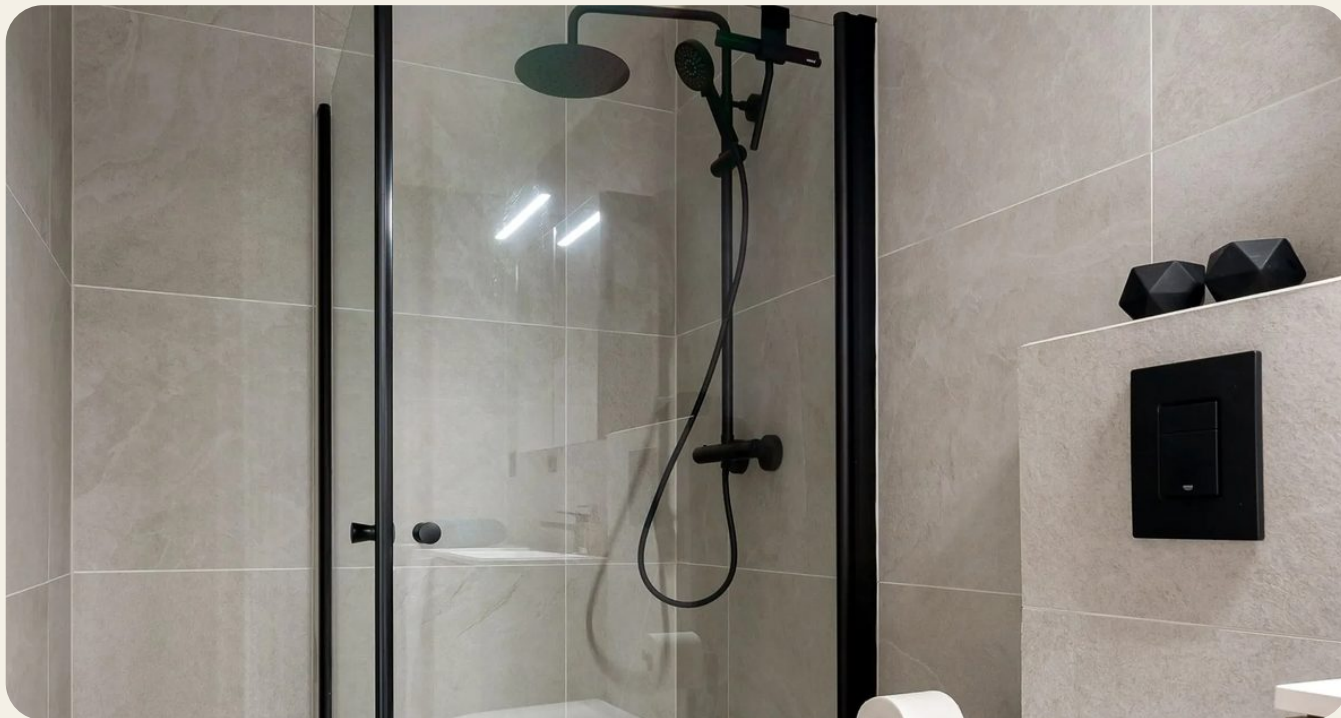

COMPLETE

Design, fabrication and installation in one team.

BATH & SHOWER

Frameless Shower Enclosures

Minimal hardware, maximum light — built around your bathroom, not a standard size.

Frameless Build

Slim hinges and clamps only — no bulky aluminium frame.

10mm Tempered

Heat-treated safety glass with hand-polished edges.

Easy-Clean Coat

Optional nano coating that repels limescale and soap.

Custom Hardware

Brass, chrome, matte black or champagne finishes.

Also available: 8mm framed and semi-frameless systems, sliding door tracks, walk-in fixed panels and steam-room enclosures.

CUSTOM SIZES AVAILABLE

COLLECTION

Bath Enclosures in Place

A selection of enclosures completed for homes and hotel apartments.

COMMERCIAL

Office & Room Partitions

Daylight through the whole floor plate, with acoustic separation where you need it.

Single Glazed

10–12mm tempered panels with slim floor and ceiling tracks.

Double Glazed

Twin-pane cavity system for meeting rooms and offices.

Frosted Bands

Manifestation film or acid-etched privacy strips.

Doors & Locks

Patch-fitting glass doors, floor springs and access control.

Suitable for offices, clinics, showrooms, retail units and residential room dividers.

FAST-TRACK FIT-OUT

WORKSPACE

Glass Walls That Open Up a Floor

Panoramic glazing and cubicle systems delivered as a single package.

We survey the site, produce a shop drawing for approval, then fabricate and install — including tracks, seals, hardware and any film or branding applied to the glass.

- Floor-to-ceiling panels up to 3.2m in height
- Butt-jointed or slim-profile aluminium framing
- Acoustic seals for meeting and consultation rooms
- Company logo and manifestation film applied on site

TECHNICAL

Specifications & Applications

Standard build-ups we supply. Non-standard sizes are quoted on survey.

PRODUCT	THICKNESS	TYPICAL APPLICATION	FINISH OPTIONS
Frameless shower	10 / 12 mm	Bathrooms, en-suites, hotel apartments	Clear, low-iron, frosted
Framed shower	6 / 8 mm	Compact bathrooms, staff accommodation	Clear, frosted
Office partition	10 / 12 mm	Meeting rooms, workstations, clinics	Clear, tinted, film-banded
Double glazed partition	10 + 10 mm	Acoustic meeting rooms, executive offices	Clear, integrated blinds
Glass door	10 / 12 mm	Entrances, partitions, retail	Patch fitting, floor spring
Mirror	5 / 6 mm	Vanity, wardrobe, gym, feature walls	Silver, bronze, antique
Splashback	6 mm	Kitchens, vanity counters	Back-painted any RAL colour
Balustrade	12 / 17.5 mm	Stairs, balconies, terraces	Clear, laminated, spigot fixed

All tempered glass is supplied to BS EN 12150 safety standards and permanently stamped. Laminated build-ups are available where a fall risk exists.

HOW WE WORK

From Survey to Silicone

A five-step process that keeps the site clean and the schedule predictable.

01

Site Survey

We measure openings, check levels and confirm access — no guesswork from floor plans alone.

02

Drawing & Quote

You receive a shop drawing with glass type, hardware finish and a fixed price before anything is cut.

03

Fabrication

Panels are cut, edge-polished, drilled and tempered to your approved drawing.

04

Installation

Our fitters install tracks, panels and hardware, then seal and clean the same day where possible.

05

Handover

We test doors, adjust hinges, remove protection film and walk the job with you before sign-off.

ALSO AVAILABLE

Beyond the Enclosure

The rest of the glass package, from the same team and the same visit.

Feature Mirrors

LED-lit, bevelled, antique and full-wall mirrors cut to any shape for vanities, gyms and living rooms.

Kitchen Splashbacks

Back-painted toughened glass in any colour — seamless, heat-safe and wiped clean in seconds.

Balustrades

Laminated glass balustrades with spigot, channel or standoff fixings for stairs, balconies and terraces.

Shopfronts

Toughened glass shopfronts, display windows and patch-fitted entrance doors for retail units.

Frosting & Film

Privacy film, manifestation bands, safety film and printed logo graphics applied on site.

Repairs & Refits

Cracked panel replacement, hinge and roller renewal, door realignment and re-sealing.

THE FM DIFFERENCE

Why Clients Keep Calling Us Back

Safety First

Every panel is tempered, stamped and installed to standard — no shortcuts on glass that people walk into.

One Team

Survey, fabrication and installation stay in-house, so nothing gets lost between suppliers.

Clean Sites

Protection down, offcuts removed, silicone tooled and glass polished before we leave.

Fair Pricing

A fixed quote from the drawing — no surprises once the job starts.

Fast Response

Site survey within 48 hours across Ajman, Sharjah, Dubai and the Northern Emirates.

After Care

Hinge adjustment, re-sealing and replacement support long after handover.

CARE GUIDE

Keeping Glass Looking New

Five minutes a week is all a frameless enclosure needs.

Squeegee Daily

A quick pull-down after showering stops limescale before it bonds to the surface.

Mild Cleaners Only

Use a non-abrasive glass cleaner. Avoid scouring pads and strong acids on coated glass.

Check the Seals

Replace worn PVC seals every few years to keep water inside the enclosure.

Mind the Hardware

Wipe hinges dry and tighten fixings annually — we can do this on a service visit.

LET US GLAZE YOUR PROJECT

Book a Free Site Survey

Glass works, curtains, flooring, TV decor, wallpaper and artificial grass — one supplier for the whole interior.
